

C25-100-METAL and C3/4-100-METAL

Raychem

Cold applied metal connection kit

PRODUCT OVERVIEW

These connection kits are designed for terminating all Raychem BTV, QTVR, XTV, KTV, HTV and VPL industrial parallel heating cables to a junction box, whilst maintaining electrical insulation of the heating cable conductors and core.

The braid is directly connected to the metal gland body. The connection kits can be used with metal boxes or plastic boxes with internal earthing plate. They are approved for use in hazardous areas.

The core sealing boot does not require a heat gun or torch for the installation (no hot work permit necessary). The non-curing sealant allows easy installation and facilitates maintenance purposes.

The C25-100-METAL kit is designed for use with M25 entries, the C3/4-100-METAL for 3/4" NPT entries.

A metal locknut is included.

Application

Connection kit for BTV, QTVR, XTV, KTV, HTV and VPL parallel heating cables

Kit contents

- 1 gland,
- 2 grommets,
- 1 locknut and sealing washer (only M25),
- 1 core sealer,
- 1 installation instruction (multilingual).
